

# WE ALL HAVE A STORY TO TELL

**GREAT STORIES ARE TOLD ON THE PAGE AND ON THE STAGE. IN MUSIC AND IN FILM. BUT SOME OF THE GREATEST STORIES OF ALL ARE THE STORIES WE TELL IN OUR OWN HOMES,** in the rooms we design around our lives. These stories are powerful because they're personal. They're the stories we tell about ourselves.

This month, Ethan Allen presents three different stories in style. Three very distinct expressions of America's classic design brand. The first story is about modern design, small space solutions, and surprising affordability. The second is about effortless elegance and livable luxury. The third story is about home fashion at its finest, crafted and customized to create one wow after another. Each of these stories in style is designed with one purpose in mind: to inspire you to tell your own.

And on the next few pages is our own story, a chronicle of extraordinary craftsmanship, incomparable personal service, and uncommon value that you simply won't find anywhere else, but you do find every day at every one of our 300+ Ethan Allen Design Centers worldwide.

**We all have a story to tell.**

**What's yours?**

Farooq Kathwari  
Chairman, President and CEO, Ethan Allen Interiors Inc.

## SUSTAINABILITY— AN EVERGREEN ADVANTAGE

At Ethan Allen, we believe that sustainable and ethical practices aren't exceptional. They're just good business. We started working toward a greater good before green was all the rage, and our efforts have helped us become leaders in environmentally responsible manufacturing.
